FY24 out: Portfolio progressing as planned

029's net income stood at € 0.33m, comparing to previous year's € 5.6m loss, which was the result of the successful exit from the investment in Emerald Stay (€ 0.94m other operating income) and the write-off of the investment Conscious Good the year before. As a reminder, 029 sold it's 5.2% stake in Emerald Stay. **The transaction is expected to generate roughly € 1.6m gross proceeds**, reflecting a realized multiple on the FY23 book value of around 2.3x and 2.7x on the invested capital.

Limestone Capital, the key holding (87% of NAV, eNuW) continues to grow its portfolio. The company is about to open a hotel on Mallorca and purchased a former Nobu location in London. With those, the number of Aethos hotels owned and managed, is set to increase to 10. Further, Limestone acquired a majority stake in LOISIUM Wine & Spa Hotels. Over the next twelve months, four new LOISIUM hotels are set to open in Italy and France backed by Limestone's commitment to invest over € 100m into the expansion of the brand. Limestone also spearheaded a € 40m Series A financing round for MYNE Homes, Europe's leading managed co-ownership provider for premium vacation homes in Germany, Austria, Italy, Spain, France, Sweden and Croatia.

TRIP Drinks (8.1% of NAV, eNuW), UK's leading brand for CBD and magnesium drinks, CBS oils, gummies and powders continues its growth trajectory. In March, TRIP was the third most popular drink choice. The company is also progressing well with its geographical expansion, especially in the USA.

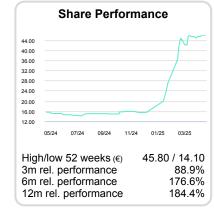

hotelbird (3.3% of NAV, eNuW) is leading solution provider for a seamless digital guest journey within the hotel industry. As the company is able to finance itself, the last funding round took place in 2019. Worth highlighting, at the end of 2024, ReGuest AG went public in Austria. The hotel CRM software company generated some € 4.3m sales in FY24 and is currently valued at € 150m (market cap). While this is not an apples to apple comparison, it underpins the sector's high multiples.

Brother's Bond (1.1% of NAV, eNuW) raised \$ 7.5m at the beginning of FY25. This should allow the company to further drive growth an reach sustainable profitability levels during the near-term.

As the current market cap (+197% ytd.) notably exceeds the company's fair NAV, we **downgrade 029 to SELL with a new PT of € 15.8** (€ 14) based on a sum of-the-parts valuation with a 5% holding discount.

4. Information Concerning the Methods of Valuation/Update

The determination of the fair value per share, i.e. the price target, and the resultant rating is done on the basis of the adjusted free cash flow (adj. FCF) method and on the basis of the discounted cash flow – DCF model. Furthermore, a peer group comparison is made.

The adj. FCF method is based on the assumption that investors purchase assets only at a price (enterprise value) at which the operating cash flow return after taxes on this investment exceeds their opportunity costs in the form of a hurdle rate of 7.5%. The operating cash flow is calculated as EBITDA less maintenance capex and taxes.

Within the framework of the DCF approach, the future free cash flows are calculated initially on the basis of a fictitious capital structure of 100% equity, i.e. interest and repayments on debt capital are not factored in initially. The adjust-

ment towards the actual capital structure is done by discounting the calculated free cash flows with the weighted average cost of capital (WACC), which takes into account both the cost of equity capital and the cost of debt. After discounting, the calculated total enterprise value is reduced by the interest-bearing debt capital in order to arrive at the equity value.

NuWays AG uses the following three-step rating system for the analysed com-

Buy: Sustainable upside potential of more than 20% within 12 months

Sell: Sustainable downside potential of more than 20% within 12 months.

Hold: Upside/downside potential is limited. No immediate catalyst visible.
